Sir:

In the Office Action dated December 16, 2003, the Examiner imposed a requirement for an election of species pursuant to 35 U.S.C. §121, requiring election of either:

Species I: The diffractive optical element having the upper film being the same material as a substrate, and having finer crystal grains; or

Species II: The diffractive optical element comprising a substrate having polycrystals whose crystal grain is not more than about one micrometer.

In response Applicants elect to prosecute Species I, and list claims 1 through 13 as readable on elected Species I. Favorable consideration of claims 1 through 13 is solicited.
